

## Form CRS Client Relationship Summary

Frazier Financial Advisors, LLC

Amended April 30, 2025

### Item 1 – Introduction: Is an investment advisory account right for you?

Frazier Financial Advisors, LLC is registered with the Securities and Exchange Commission as an investment adviser. Please be aware that brokerage and investment advisory services and fees differ and that it is important for you to understand the differences. Free and simple tools are available to research firms and financial professionals at [Investor.gov/CRS](https://investor.gov/CRS), which also provides educational materials about broker-dealers, investment advisers, and investing.

### Item 2 – What investment services and advice can you provide me?

We offer investment advisory services to retail investors. Our principal services include investment management, financial planning and the selection of other advisers. As part of our standard investment management service we provide continuous and regular supervisory and/or management services with respect to your account(s). In regard to investment management accounts we monitor your investments on an ongoing basis. We do not monitor the investments made as a result of a financial plan unless you have hired us for investment management services. Our investment management services are offered on either a *discretionary* or *non-discretionary* basis. *Discretionary* authorization allows us to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. *Non-discretionary* arrangements require us to obtain your approval prior to executing any transactions on behalf of your account. We do not limit our advice to proprietary products, or a limited menu of products or types of investments. We charge a negotiable quarterly minimum fee up to \$1,500. At our discretion, we reserve the right to waive this minimum.

**For additional information, please refer to Items 4, 7, & 13 of our Form ADV Part 2A at the following link: <https://adviserinfo.sec.gov/firm/brochure/106649>.**

*Conversation Starters. Ask your financial professional—*

- ❖ *Given my financial situation, should I choose an investment advisory service? Why or why not?*
- ❖ *How will you choose investments to recommend to me?*
- ❖ *What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?*

### Item 3 – What fees will I pay?

We are primarily compensated by a percentage of assets under our management, fixed fees and hourly fees. Our fees vary depending on the services you receive. Investment management fees are based upon a percentage of your assets under our management, and are payable each quarter in advance. Advisory fees charged by third party investment adviser(s) are separate and apart from our advisory fees. Those assets managed by third party investment advisers will be included in calculating our advisory fee. The more assets there are in your advisory account, the more you will pay in fees. Therefore, we have an incentive to grow your assets in the most prudent way possible. We provide financial planning services for a fixed or hourly fee. Our fees vary depending upon the complexity and scope of the service, your financial situation, and your objectives.

**For additional information regarding our fees, please see Item 5 of our Form ADV Part 2A at the following link: <https://adviserinfo.sec.gov/firm/brochure/106649>.**

**Description of Other Fees and Costs:** The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by investment companies (e.g., mutual funds, exchange traded funds, unit investment trusts and variable annuities). These fees are described in each fund's prospectus. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian that executes the trade. The broker-dealer or custodian may also charge your account for custodial fees, retirement account fees, trust fees, exchange fees, redemption fees that may be assessed on investment company shares, transfer fees, account termination fees or other special service fees and charges. We do not share in any portion of these fees imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by investment companies, broker-dealers, our firm, and others.

**You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.**

**For additional information, please refer to Item 5 of Form ADV Part 2A at the following link: <https://adviserinfo.sec.gov/firm/brochure/106649>.**

*Conversation Starter. Ask your financial professional—*

- ❖ *Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?*

**What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?**

**When we act as your investment adviser**, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here is an example to help you understand what this means:

- All investment advisers face conflicts of interest which are inherent in the business. Conflicts of interest can result from other business activities we engage in and relationships we have with business partners and third parties, or affiliations we have established with other financial institutions.
- When we provide investment advice to you regarding your retirement plan account or individual retirement account, we are fiduciaries within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. The way we make money creates some conflicts with your interests, so we operate under a special rule that requires us to act in your best interest and not put our interests ahead of yours.

*Conversation Starter. Ask your financial professional—*

- ❖ *How might your conflicts of interest affect me, and how will you address them?*

**Please refer to our Form ADV Part 2A for further information on our conflicts of interest and how we address them at the following link: <https://adviserinfo.sec.gov/firm/brochure/106649>.**

**How do your financial professionals make money?**

Our financial professionals receive salary based compensation. Our financial professionals are also insurance agents and may receive a portion of the commission on the insurance product sold to you. Our financial professionals are also registered representatives with Private Client Services, LLC, a securities broker-dealer. These arrangements could create a conflict of interest due to the receipt of additional commission-based compensation in connection with the purchase and sale of insurance and securities, including 12b-1 fees for the sale of certain investment company products. You are not required to purchase insurance or securities from our financial professionals.

#### **Item 4 – Do you or your financial professionals have legal or disciplinary history?**

No, our firm and financial professionals do not have legal and/or disciplinary history.
